This car seat is classified for "Semi Universal" use. It is suitable to fix into seat positions in most cars. The numbers on the diagram below correspond with the vehicle fitting positions listed in the following pages.

If your child restraint can be fitted, it is marked with    
If your child restraint cannot be fitted, it is marked with    
Electric or hybrid vehicles are marked with    
i-Size vehicles are marked with 

Vehicles with under-floor storage boxes are marked with **SB!** -Please consult your vehicle user manual or dealer when fitting this seat in a vehicle with under-floor storage boxes. Vehicles with a cabin roof height which could restrict the seat being installed forward facing are marked with **!**

If your vehicle is not listed in this manual or it is not marked with either a  or  then please refer to your vehicle's handbook or contact the manufacturer for further information. Seat positions in other cars may also be suitable to accept the child restraint. If in doubt, consult either the child restraint manufacturer or the retailer.

Before you purchase the vehicle, check that it is equipped with the appropriate anchorages.
